

January 31, Birthday Party: Groovy baby !

Uni-Mail – Salle MR070 – De 19h00 à 21h30

For the second anniversary of the GenevaJUG, let's go for a travel in the Groovy world !

Join us the January 31, at Uni-Mail, room R070, with 4 Groovy-stars speakers, some gifts and surprises to discover the main projects of the Groovy ecosystem in four 30' talks :

- Groovy, the dynamic language for the Java platform, by Hamlet D'Arcy
- Grails, the high productivity web framework, by Dierk König
- Griffon, the Grails like application framework for desktop applications, by Andres Almiray
- Spock, the testing and specification framework, by Mathilde Lemée
